Wireless Temperature Monitoring Systems

Advanced Remote Monitoring System (ARMS™)

Premier System of Choice

- Continuous Self-Diagnostic Monitoring
- Automated Data and Corrective Action Documentation
- Highly Scalable and Easily Configurable
- Customizable Views, Alarms, and Reports
- Only Isensix Alarms (Alerts) at the Point of Occurrence / Correction
- 24/7 Customer Service and Product Support
- Continuous "Enterprise View" Monitoring and Alerting 24/7
- Highest Reliability and Quality
- Complete On-Site IQ/OQ Validation
- On-Site Basic and Advanced Training
- Annual NIST Calibration of All Sensors
- Fully Compliant with FDA 21 CFR Part 11
- ARMS is the Only System that Does Not Interfere with Itself (No "Signal Contention")
- Full Turnkey Installation in Days, Not Months
- Isensix ARMS is the Only System that Operates Seamlessly in Medium to Large-Size Enterprises

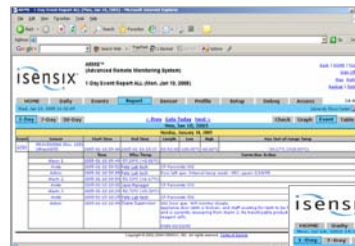

Sensor and Product Offering

- Temperature (-200° C to 110° C)
